CS 4063/5063
Project: Show & Tell *(will count as 1/4 of your project presentation grade)*
*Due Wednesday 2022.03.09 at 5:00pm. **This is strict!** Late days are not allowed.*

Class on Thursday, March 10 will be for Project Show & Tell. Each team will prepare one slide with an embedded video. I'll show the slides and play the videos in order of team number. Teams will be identified and recognized with applause after their video.

It will be informal, but **attendance is required!**

Prepare a **3.0–4.0 minute** video about your project to present to the class. This can be a set of video selfies talking about aspects of your project, a screen capture of a demo with voiceover, etc. It's perfectly fine to record the video using a phone, laptop camera, etc. All team members should make an appearance (at least as a voice) in the video.

Use either the PowerPoint (`teamXX.pptx`) or Keynote (`teamXX.key`) template for your slide. Replace the XX both in the filename and on the slide with your two-digit team number. Insert your project title, team member names, team member photo(s), and video in the designated places. Try to stick to the slide format as best you can.

This is a group assignment; only one slide should be turned in for your team. Zip your slide file, then go to the Project Show and Tell assignment in Canvas to turn in the zip.

Note that 4063 and 5063 are treated as distinct courses in Canvas. Members of teams with both 4063 and 5063 people will not be able to see at least one of their teammates. For these teams, submit the document to either the 4063 or 5063 assignment, not both.
